

→ ISOLMANT KIT SCALE

IsolTile is an undertile resilient layer, made of HD expanded polypropylene which is calendered-coated by FIBTEC XP1 on both sides. FIBTEC-XP1 is non-woven, embossed, screen-printed black polypropylene fibre, designed for the acoustic insulation of finishings. Isolmant Kit Scale comes with standards shapes sheets of IsolTile that could be cut according to the actual size of treads and risers and stairs landings. This kit includes all the necessary accessories as adhesive tape to seal the sheet and flanking strips for disconnecting wall and stairs both fundamental to perform the acoustic insulation of stairs.

<p>THICKNESS</p>	<p>Approx. 2 mm</p>
<p>INSTALLATION</p>	<p>Check the surface that should be planar and moisturise the staircase concrete before laying the adhesive. Cut IsolTile sheets and install them by means of the C2 class adhesive. Isolmant IsolTile should be installed also on the landings between a flight of steps and the following one. Once installed Isolmant IsolTile, seal the sheets that have been laid on each step by means of the IsolTile strip. Install Isolmant IsolTile lateral strip on the vertical partition to disconnect the step and the staircase wall. By means of IsolTile sealing tape seal the connection line between IsolTile lateral strip and Isolmant IsolTile that is installed on the step and on the landing. Lay the mortar bed on the IsolTile sheet installed on step and landing. Install the marble tile. Cut the extra length of IsolTile lateral strip after installing the flooring. Then lay the skirting boards sealing the clearance between the base and the marble.</p>
<p>SIZE</p>	<p>Isolmant IsolTile treads sheet: h 33 for 125 cm Isolmant IsolTile risers sheet: h 20 for 125 cm Isolmant IsolTile landing sheet: h 50 for 125 cm Isolmant IsolTile sealing tape: h 7.5 cm for 20 m Isolmant IsolTile lateral strip: h 18.5 cm per 25 m</p>
<p>PACKAGING</p> <p>Note: one Kit to insulate a standard staircase (two half-stairs and one landing).</p>	<p>Isolmant IsolTile treads sheet: 22 elements Isolmant IsolTile risers sheet: 22 elements Isolmant IsolTile landing sheet: 4 elements Isolmant IsolTile sealing tape: 5 elements Isolmant IsolTile lateral strip: 1 element</p>
